

As the healthcare community is moving toward value-based payment, Redbud Physical Therapy is proud to present its Scorecard. Founded in 1997, Redbud Physical Therapy is a locally owned private physical therapy practice with a history of providing long-lasting outcomes without surgery, medication, or diagnostic imaging.

Outcomes matter to us. Let us prove it to you and your patients.

Redbud Quality Scores					
	Definition	Redbud	Benchmark	Benchmark Comparison	Comment
Clinical Excellence					
Clinical Effectiveness	Exceptional Performance Threshold*	76+	75	Exceeded	In light of Medicare's recent requirement that outcomes reporting reflects all types of payment sources (not just Medicare patients), we have adopted Medicare's Merit-based Incentive Payment System (MIPS). All clinics with 2019 data exceeded the exceptional performance threshold (EPT) of 75 points.
Cost per Episode	Average Total Paid per Episode**	\$1,215	\$3,450	65% lower	Workers' Comp Research Institute, 21st Edition, 2020 18-state median payment per PT/OT claim
Board Certification	American Board of Physical Therapy Specialists offers board certification in 9 specialty areas	45%	10%	4.5x greater	Benchmark = All U.S. PTs
Service Expectations

Explanations

MIPS (Merit-based Incentive Payment System)

Redbud Physical Therapy began incorporating third party outcomes scoring in 1997. In light of Medicare's recent requirement that outcomes reporting reflects all types of payment sources (not just Medicare patients), we have adopted Medicare's Merit-based Incentive Payment System (MIPS) across all our clinics. To drive quality improvement activities and ensure that our patients are receiving the best possible care, Redbud Physical Therapy uses Keet Outcomes™ to monitor MIPS reporting.

Preliminary results show top outcomes scores for our clinics, despite 9-month lags in each annual reporting period. Our clinics are exceeding the data completeness threshold of reporting on 70% of eligible patients during 2020, and all clinics with 2019 data exceeded the exceptional performance threshold (EPT) of 75 points.

Keet is powered by Intermountain Healthcare's Rehab Outcomes Management System (Intermountain ROMS), the premier clinical outcomes registry and quality reporting system for physical and occupational therapy. Intermountain ROMS is backed by 18 years of experience and 10 years of peer-reviewed research published in such journals as *Spine*, *Archives of Physical Medicine and Rehabilitation*, *Journal of Arthroplasty*, *JOSPT*, and *PTJ*. Intermountain Healthcare is a leading innovator in value-based care delivery.

Called To Care

Called To Care ensures that Redbud's staff fosters an atmosphere of compassion, empathy, and service. The program uses a validated CARE Measure to track progress and compare results to a database of other healthcare providers. Redbud consistently scores in the 95th percentile when it comes to listening and communication. The Baseline score is based on contributions from 8,585 CARE providers from caremeasure.org.
